AI/ML Intern

Position Overview:

We are seeking a talented and motivated graduate-level intern to join our team as an AI/ML Intern. This position offers a unique opportunity to gain hands-on experience in artificial intelligence and machine learning while working on real-world projects.

Key Responsibilities:

- Familiarity with Python frameworks is desired for this position. Along with LLM and RAG knowledge .
- The preferred candidate should have practical experience using at least three to four different AI/ML algorithms
- Familiarity with SQL or NoSQL databases is required, as they are commonly used for managing and analyzing data in AI/ML projects.
- Problem-solving skills are a must if you are not eager to cope with the constraints •
- Contribute to the development of technical documentation and knowledge sharing within the team

Qualifications:

- Currently pursuing a graduate degree in Btech AI, Computer Science, Engineering Mathematics, Statistics, or a related field.
- Strong understanding of machine learning fundamentals and algorithms.
- Proficiency in programming languages such as Python.
- Ability to work independently and collaborate effectively in a team environment
